AIR CONDITIONING SEASON REMINDERS

- Residents should check their HVAC units routinely. If necessary, filters should be changed monthly. If your A/C is not cooling, check circuit breakers and thermostats.
- Thermostats should not be set lower than 68 degrees.
- If possible, turn your HVAC system off during electrical storms.
- If you need service, the office can recommend reputable HVAC contractors who have worked within Acorn Ponds for many years.
- When using a contractor of your choice, you must provide evidence of their insurance to the Condominium office.

PROPANE TANKS

With summer in effect, please be aware that any empty propane tanks are NOT PERMITTED in the common garage under any circumstances. Even if tanks are empty or contain a small amount of propane, they are still dangerously explosive. In many cases, if they start to rust, gas can escape.

Propane tanks can be returned to Home Depot and some gas stations will accept them as well.
